Voluntary Night Curfew - All Aircraft

Pilots are encouraged not to fly between the hours of 11 p.m. and 6 a.m. Due to FAA regulations, PDK cannot implement a mandatory curfew at this time. While DeKalb County cannot enact a mandatory curfew, the airport has taken numerous steps to let the flying public know there is a voluntary curfew period. Letters are sent to each aircraft operator who flies in or out of the airport during the voluntary curfew period, notifying operators of the curfew and requesting they avoid flying during this period whenever possible. Many times, just notifying these operators has made a big difference. The voluntary curfew is published on the airport's website, and the curfew information is published in written publications routinely used by professional aviators. Only those operators conducting verified medical operations are exempt. These operations include, but may not be limited to transfer of patients, transfer of blood, medical supplies and medical tests, organ donor transplants, etc.
